ROADMAP TO IMPACT: ADDRESSING CRITICAL MENTAL HEALTH NEEDS

MENTAL HEALTH & WELL-BEING IS A PRIORITY FOR FEDERATION.

Core Commitment: **Well-being & safety**

Mental health and well-being emerged as one of our community's top challenges during the COVID-19 pandemic. 

1

THE NEED

Local **young adults** have had more trouble coping with the psychological effects of the pandemic than **other age groups**

Ages 18-34 54%
All respondents 30%

Source: Brandeis Building Resilient Communities Study, June 2020

However, the need is widespread throughout the community.

61
PERCENT

of respondents to a community leadership survey reported that their constituents are experiencing mental health challenges – a higher percentage than any other need.

CREATING CHANGE

2

We **convened** community partners to develop strategies to address the needs of young adults, which informed our broader community response.

Multi-pronged approach to address these mental health needs:

Community mental health trainings

Community Impact Investments to JFS and BBYO

Supporting Day School student needs

Young adult mini grants for pilots

Mental Health Access Fund Pilot to reduce cost barriers

Request for Proposals from local Jewish organizations

We've learned that **both clinical and community supports** are essential to promoting resilience and wellness.
Desired outcomes:

MEASURING IMPACT

3

- Improve Jewish community capacity to respond to mental health challenges.
- Increase mental and emotional well-being.
- Reduce barriers to accessing services.
- Normalize mental healthcare.
- Strengthen Jewish community connection to support resilience.

SAFETY & SECURITY IS A PRIORITY FOR FEDERATION.

Core Commitment: **Well-being & safety**

1

THE NEED

In 2020, the FBI reported **683 Hate Crimes** committed against Jews in the U.S.

53
PERCENT

of respondents to a Pew Research Center study said that, as a Jewish person in the US, they personally **feel less safe** today (2020) than they did five years ago.

CREATING CHANGE

2

In 2019, Jewish Federation made a significant investment to provide physical security enhancements to Jewish community organization and congregation buildings

\$350,000
to enhance physical security in our community

The Director of Community Security conducted security audits and coordinated the addition of enhancements based on the unique needs of each organization and congregation. Physical security enhancements included building bollards and barriers, secure doors and hardware, and window security laminate.

These enhancements aim to mitigate the threat of active attackers. The multi-year project is now complete and helped strengthen the physical security of 30 local Jewish organizations and congregations.

HOW WE MAKE COMMUNITY IMPACT INVESTMENTS

We make Community Impact Investments in the work of our Community Partners in alignment with our Core Commitments and towards outcomes in our priority areas. Through a partnership with our lay leaders, we use three key factors in our Community Impact Investment process:

Community Needs

We use data - collected through needs assessments, the community study, and what we are hearing from partners - to understand the needs of our community and its members.

Relationships

We build and maintain strong and trusting relationships with our Community Partners.

Learning and Improvement

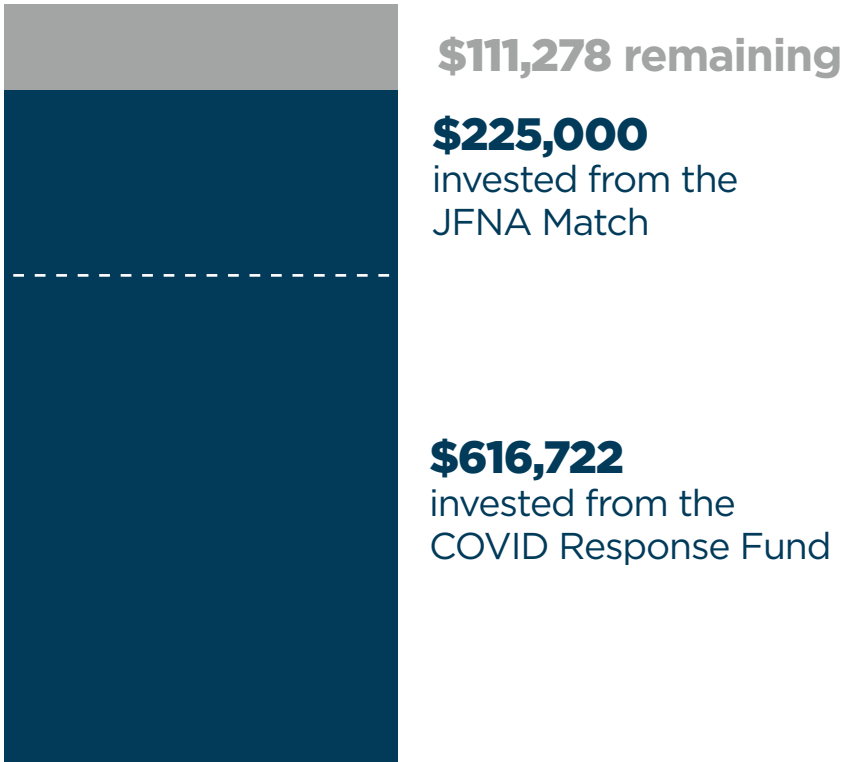

We focus efforts around evaluation; we work with our partners to evaluate their work and aim to empower our partners to use evaluation as a tool for learning and improvement.

COVID RESPONSE FUND INVESTMENTS

Federation's COVID-19 Community Response Fund has provided urgently needed support to vulnerable people in Jewish communities throughout the greater St. Louis area, including food, mental health services, and economic assistance. The fund has also helped to meet the critical and ongoing needs of our Jewish communal organizations so that they can continue to operate during these challenging times.
